

MOTO-PREP PROTECTIVE COATING SPRAY

>>Description

Moto-Prep Protective Coating Spray is ideal for restoring and reviving dull, faded surfaces to a dry, shiny finish. Moto-Prep is formulated for use on plastic, painted, fiberglass and metal surfaces providing a long lasting shine. Moto-Prep is intended for many powersport and automotive applications and is excellent for displacing moisture and protecting against corrosion.

>>Features

- >Restores surfaces to shiny finish
- >For plastic, metal and painted surfaces
- >Repels dirt and dust build-up
- >Protects against corrosion

>>Application

Powersport applications: recommended for the underside of fenders, frame and engine to reduce dirt build-up and to help make clean-up easier.

Automotive applications: recommended for beautifying and protecting the engine compartment, wheel wells and other parts on your automobile.

>>Directions

Shake can before use. After washing and drying vehicle, hold Moto-Prep 4-6 inches away from surface and apply a light coating. Wait a few seconds to allow drying. Depending on the texture and shine of the surface you may choose to wipe down with a dry cloth or apply more product. Do not use on hand grips or seat surfaces. Make sure that there is no over spray on brakes. Use Torco Brake & Contact Cleaner to remove any possible overspray on brake components.
